GENERAL INDEX

Entries from the Digest of Current Electrical Literature are indicated by (D) Digest

PAGES BY ISSUES

1 to	82	January 1
83 to	132	January 8
133 to	184	January 15
185 to	234	January 22
235 to	284	January 29
285 to	336	February 5
337 to	386	February 12
387 to	438	February 19
439 to	488	February 26
489 to	540	March 5
541 to	590	March 12
591 to	642	March 19
643 to	692	March 26
693 to	744	April 2
745 to	794	April 9
795 to	846	April 16
847 to	896	April 23
897 to	946	April 30
947 to	998	May 7
999 to	1048	May 14
1049 to	1100	May 21
1101 to	1180	May 28
1181 to	1232	June 4
1233 to	1312	June 11
1313 to	1364	June 18
1365 to	1414	June 25

A

Accident prevention:
——Beverly (Mass.) no-accident pennant, *210.
——Boston Edison safety organization, *209.
——"Careful club" effective in (R. G. Boyles), *305.
——Cost of accidents to employees (A. A. Rall), 919.
——Dayton (Ohio) utility's safety record competition, 101.
——Exposure hazards on intermediate voltage lines (editorial comment), 1001.
——First-aid drill every week (N. E. Emmons), 258.
——Glove tests, safeguarding (G. M. Hardy), *358.
——High voltages, electrolytic cell protects against, (C. E. Stryker), *611.
——Insull medal to Kansas man, *1167.
——Live-line tools, use of (Harry O'Brien), *460.
——Pole-top accidents, non-slip life line used for, *206.
——Regulators to catch oil, pit beneath, *103.
——Resuscitation discounted, value of countershock as an aid to (editorial comment), 1314.
——Rope tackle blocks, peculiar misuse of, 205.
——Safety rules developed by employees, 154.
——Shock, experimental electric (R. W. Ian Urquhart) D. 1207.
——Shocks from motorized office machines, electric (K. Heinrich) D. 718.
——Towers, safety guards for exposed transmission, 509.
——Transformer gases found explosive, entrapped (Frederick Krug), *560.
——Tree grounds safely, clearing (F. A. Woods), *358.
——Utility employees give first aid to public (W. E. Richmond), 105.
——Utility selected to direct local, 309.
Accounting and billing (see also Records):
——Engineer and accountant, difference of viewpoint (John A. Allen), 457.
Acoustic elements with applications to recurrent acoustic filters, tapered acoustic filters and horns, regular combination of (W. P. Mason) D. 1025.
Administration (see Management):
Advertising (see also Public relations):
——Alabama Power Company's program, *1023.
——Lighting "ads" yield returns, 156.
——Public good will through, cultivating (H. P. Megargie), *613.
——Refrigeration, the service value of electric, *716.
——Stockholders notified of meeting in fourteen languages, *1074.
——"Third step" the, *1075.
——Trucks afford good medium, electric, *410.
Air ports, equipments for (M. Sauernheimer) D. 363.
Air breakers (see Circuit breakers):
Alabama:
——Birmingham Electric Co.
Smokestack or power plant collapses, 215.
——Growing rapidly because of electric power, *1124.
——Power Co.
Advertising program for, *1023.
Dollar, collects belated federal, *117.
Growth, 774.
110-kv. line built through swamp, *316.
110-kv. wood-pole transmission line (J. P. Lewis), *242.
——Wilson Dam, claims revenue from, 1166.
——Revillagigedo Island power development, proposed, 165.
Alloys (see Metal):
Aluminum:
——Alloy of high rupturing strength (E. Dusaugey) D. 718.
——Pig, modern technology in producing (R. S. McBride) D. 669.
American Electro-chemical Society meeting, 879, 980.
American Engineering Council:
——Annual meeting, 214.
——Program, 114.
American Institute of Electrical Engineers:
——Bethlehem (Pa.) meeting, discussion at, 966.
——Convention,
Annual, at Detroit, program, 1164, 1296, report, 1394.
Mid-winter, 216, 365, *391, *401, editorial comment, 387.
——Gherardi formally elected, *1163.
——Meetings, coming, 719.
——Members for life elected, 216.
——Middle Eastern District regional meeting, 927.
——Northeastern District regional meeting, 1031, 1165, 1211.
——Regional meetings, 216, 571, 672, 927, 1031, 1165, 1211.
——Southwestern District regional meeting, 571, 672.
——Standardization:
And the (John C. Parker), 812, editorial comment, 796.
Order and authority needed in (editorial comment), 643.
——Standards, new procedure to formulate (Cummings C. Chesney), 398.
American Mining Congress, Southern Division Conference, 774.
American Society of Agricultural Engineers, Annual convention, 1395.
American Society of Mechanical Engineers:
——Kansas City regional meeting, 823.
——Lincoln arc welding award, 228.
——Spring meeting, 1212.
American Society for Testing Materials:
——Committee meetings, 720.
American Welding Society's annual meeting, 980.
Annealing (see under Furnaces, electric):
Annunciators (see under Signals):
Appliances (see also Commercial activities and Manufacturing and markets):
——Unsafe, how Portland (Ore.) guards against (L. W. Going), 203.
Arc welding (see Welding):
Arizona:
——Colorado River and Boulder Dam, 113.
——Utilities Association meets, 1213.
Arkansas:
——Power & Light Company absorbs Dixie Hydro-Electric Power Company, 620.
——Tornado in, 1077.
——Utilities Association convention, 1080.
Arresters (see Lightning arresters):
Association of Electragists International:
——Chamblin elected president, 672.
Association of Iron and Steel Electrical Engineers convention, 1168, 1343, editorial comment, 1367.
Association and societies (see also names of individual organizations):
——Conventions worth while, are? (Roger A. Lea), 303.
——Directory of, 80.
——News of, 73, 116, 167, 219, 268, 318, 371, 421, 473, 520, 574, 624, 676, 725, 776, 827, 881, 929, 981, 1032, 1082, 1169, 1213, 1299, 1347, 1399.
——Standardization and societies (John C. Parker), 812, editorial comment, 796.
Associated Manufacturers of Electrical Supplies (see National Electrical Manufacturers Asso.):

B

Barometers (see Business and Statistics):
Batteries, storage:
——Charging:
Equipment installed by New York Edison, simplified, *258.
——Closed-top, for low-duty control circuits, *204.
Baum principle of transmission (Charles L. Fortescue), *954, editorial comment, 948.
Billing (see also Accounting and Records):
——Machine, of customer accounts (George S. Cushman), *856.
Blasting mats made of 12-in. logs, *408.
Blower operation, thermostat reduces, *155.
Boats (see Ships):
Boiler room (see Boilers):
Boiler, mercury:
——Hartford (Conn.) Electric Light Company orders new, 926.
Boilers, steam:
——Automatic control, manual feature added to (James Murphy), 152.
——Drums, manufacture of high-pressure (D), 1024.
——Feeder screws, steel supersedes cast iron in (Irvin G. McChesney), *1387.
——Stokers to, relation of (W. A. Shoudy) D 566.
——Sulzer 1,500-lb., the (D), 465.
——Temperature gradients (C. F. Wade) D. 873.
Book reviews (see also Books received):
——Accounting procedure for public utilities (Warren G. Bailey and D. E. Knowles), 770.
——Alternating-current rectification and allied problems (L. B. W. Jolley), 618.
——Circuit theory and the operational calculus, electric (John R. Carson), 110.
——Condensers: their construction, design and industrial uses, electrical, (Philip R. Coursey), 1338.
——Democracy, political and industrial (W. Jett Lauck), 364.
——Données numériques d'electricité, magnétisme et electrochimie (Buffat, Higson, Gordon and Malapert), 1026.
——Drehstromefens, die leistung des (Dr. Ing. J. Wotschke), 110.
——Engineering problems (Raymond, Woodward and Prageman), 364.
——Heat and heat engines, elementary (F. G. R. Wilkins), 618.
——Heat-power engineering, elements of (Barnard, Ellenwood and Hirshfeld), 770.
——High-tension line practice and methods (E. V. Pannell), 110.
——Hydro-electric handbook (W. P. Creager and J. D. Justin), 618.
——Insulating materials, electrical (Allan Monkhouse), 364.
——Isolatoren, zerstörungs und alterungserschein—ungen an porcelan (K. Draeger), 110.
——Machine design, electrical (Alexander Gray), 770.
——Magnetic material, properties and testing of (Thomas Spooner), 1026, 1338.
——Magnetism and atomic structure (E. C. Stoner), 110.
——Main Street and Wall Street (William Z. Ripley), 618.
——Motor, notes on the induction (H. E. Dance), 618.
——Oesterreichs, statistik der elektrizitä swerke und der elektrischen bahnen, 1026.
——Patents (Roger Sherman Hoar), 770.
——Permit, the indeterminate (Delos F. Wilcox), 1026.
——Photometry (F. G. H. Lewis), 364, correction, (John W. T. Walsh), 761.
——Power stations, electric (L. W. W. Morrow), 618.
——Public service regulation, guiding principles of (Henry C. Spurr), 364.
——Rectifiers and their circuits, principles of mercury-arc (D. C. Prince and F. B. Vogdes), 1026.
——Regulation, guiding principles of public service—Vol III (Henry C. Spurr), 1338.
——Rotary and motor converters (Ernest F. Smith), 618.
——Speculation, the art of (Philip L. Carret), 1338.
——Stockholder, a small (John T. Broderick), 770.
——Switching equipment for power control (Stephen Q. Hayes), 618.
——The Blue Book: the Electrical Trades Directory and Handbook, 618.
——The public utilities: a retrospect and forecast to 1930, 1338.
——Trains, electric (R. E. Dickinson), 770.
——Transmission, electric power (Alfred Still), 1338.
——Underground systems for electric light and power (T. C. Ruhling), 1026.
——Unfall, der elektrische (Stefan Jellinek), 1026.
——Vacuum practice (L. Dunoyer), 364.
——Water power engineering (H. K. Barrows), 364.
——Welding, arc, 770.
——X-Rays, applied (G. L. Clark), 110.
Books received, 110, 364, 770, 1026, 1338.
Boston (see Massachusetts):
Breakers (see Circuit breakers):
Broadcasting (see under Radio):
Brooklyn (see New York City):
Brushes:
——Carbon:
Application of, to electrical machines (P. D. Manbeck), *239.
Burchard, Anson W., death of, *265; editorial comment, 235.
Bureau of Standards (see Standards):
Bus:
——Generator, for multiple-cable connections (I. C. Roberts), *1201.

*Indicates illustrated articles

Business (see also Manufacturing and Markets and Statistics):
——Big, has nothing to fear, *1329.
——Effect of general, on the electrical industry (editorial comment), 693.
——Guesswork out of, take (editorial comment), 1102.
——Industry needs a political consciousness (Hon. Albert C. Ritchie), *1278.
——International Economic Conference, 774 (E. J. Mehren), 1042, 1091, *1225, 1355, editorial comment, 1102.
——Prosperity and the electric utilities (Col. Leonard P. Ayres), *1116.
——Trend indications in the light and power industry (H. M. Cameron), *1110.
Byllesby interests (see also Financial):
——Construction program for 1927, 370.
——Group utility management, principles of (Halford Erickson), *1119.
——Pacific Gas & Electric Company buys three, *978, 1174.

C

Cables:
——A.I.E.E. papers on, 393.
——Commonwealth Edison installs two 66-kv., 72.
——Condensers (S. Silbermann) D, 413.
——Conductors, mechanical theory of twisting (H. Müller) D, 973.
——Extra-high-pressure, design of (E. B. Nixon) D, *362.
——Faults, radio methods locate (George H. Hagar), 1386.
——German 110-kv., *301, comment (R. Barrat), 710.
——Inductive losses in three-conductor type H (D. M. Simons) D, 873.
——Lead, fireproofing of (A. D. Pettee), *612.
——Manufacture, practical points on (A. I. Tracey) D, 212.
——110-kv., displayed at Düsseldorf, *301, comment (R. Barrat), 710.
——Puget Sound Power & Light Company's deep-sea power, laying, *394.
——Quality, assessment of (G. W. Preston) D, 972.
——Sheaths, place to ground, *866.
——Submarine:
Progress (E. S. Heurtley) D, 923.
——Telephone, location of opens in toll (P. G. Edwards and H. W. Herrington) D, 567.
——Things not to do (T. G. Hieronymous), *507.
California:
——Colorado River commission, 1165.
——Commissions report, Railroad, 419.
——Great Western Power Co.
1927 budget, 473.
220-kv. line, 1294.
——Hydro-electric power in, 887.
——Los Angeles:
Bureau of Power has ambitious program, 266.
Power Bureau plan rejected, 1344, editorial comment, 1313.
Private lines, still covets, 1081.
San Pedro steam plant held up, 215.
Suit against, 368, 822, 927.
——Melones Dam now ready, 1345.
——Pacific Gas & Electric Co.:
Byllesby properties, buys, *978, 1174.
1927 program, 317.
Substations, steel-cell unit-type outdoor (Richard C. Powell), *449.
——San Francisco:
Public utilities commission, proposed, 1163.
Spring Valley water project, defeats, 1344.
——San Joaquin Light & Power Company:
Balch hydro plant starts, 313, *369, (J. W. Jourdan and C. P. Rhine), *906, 1075.
1927 budget, 473.
Substation construction, flexibility in outdoor (C. E. Schnell), *289.
——Sierras, winter conditions in the high, *12.
——Southern, Edison Co.
Big Creek camp hit by storm, 415.
Hermingham case, 71, 266.
Long Beach No. 3 steam plant, 115.
Los Angeles steam plant, fight over, 822, 927.
94,000-kw. units, progress on, *827.
Rates, experiment in lower, 1163.
Substations for residential districts (H. L. Doolittle), *697.
——Southern Sierras Power Company rates reduced, 1211.
——Storm, power-plant men welcome, 468.
Canada:
——Canadian Electrical Association convention, 1210.
——Canal-power bill, 719.
——Carillon project, 166, 518, 674, 719, 822, 979.
——Census, electric, 1090.
——Duke-Price Power Company: water rheostat employed as emergency load (B. K. Boulton), *1017.
——Gatineau Power Company expands, 1295.
——Gatineau River hydro plants, *238, 518.
——Light and power industry is first, 369.
——Manitoba Power Company extension (H. C. Howard) D, 1339.
——Mining industry, meeting the power needs of the, 803.
——Moncton case decision, 1393.
——Newfoundland Power & Paper Company to be sold, 1398.
——Ontario:
Northern, private electric development urged for, 979.
Canada (Continued):
——Ontario, Hydro-Electric Power Commission:
Anniversary, silver, 1345.
1926 growth, 420.
Ottawa River dispute, 621.
Ottawa-Toronto 220-kv. line, 1081.
Promoter links, with "power trust," 771.
Report, annual, 783.
Twelve years of (G. J. Mickler) D, *1024.
——Paper Company's electrically-driven plant, Canadian International, 853.
——St. Lawrence River, *24, 111.
——Shawinigan Water & Power Company's Isle Maligne to Quebec line, 1082.
——Water power:
1895 to date, 913.
1926 development, 165.
Resources report, 774 (D), 1024, 1304.
——Western, power in, 1213.
——Winnipeg Hydro-Electric System's Point du Bois hydro plant, *850.
——Winnipeg system generates steam from hydro power, 702.
Capacitors save cost first year (H. M. Jalonack), 503.
Car dumper, first electrically operated (C. C. Clymer and C. S. Albright), *700.
Carrier current communication:
——Selector supervisory equipment (C. E. Stewart and C. F. Whitney) D, 768.
——Why not "wired wireless"? (editorial comment), 746.
Cathode rays outside of the generating tube, production of high-voltage (W. D. Coolidge) D, 212, (W. D. Coolidge and C. N. Moore) D, 413.
Catalogs. (See Trade literature):
Cell for electro-organic reductions, short-circuited (C. J. Brockman) D, 1076.
Census. (See Statistics):
Central stations. (See Generating stations and Hydro-electric developments and plants):
Chamber of Commerce of the United States, meeting, 941, 1043.
Charts. (See under Records):
Chicago. (See under Illinois):
China:
——Hydro-electric plants (K. Mosig) D, 668.
Cincinnati. (See Ohio):
Circuit breakers:
——A.I.E.E. paper on, 391.
——Circuits are opened by, how (B. S. Burke) D, 820.
——Contacts for, solid (P. Charpentier) D, 513.
——Developments:
Field and laboratory tests as basis for, *390.
Hindrances to (editorial comment), 187, comment (M. M. Samuels), 302, comment (H. J. Scholz), 608.
——High-speed, tests with (A. Cohn) D, 873.
——Saw-voltage applications, solution of, for (Burt S. Burke) D, 922.
——Oil:
Operating routine in small plants (E. J. Morrissey), *1068.
Piping for, standard, *459.
Protection on, arc-to-ground (Walter T. Frey), *103.
Rupturing capacity of an (Wedmore, Whitney and Bruce) D, 1339.
Transformer connections, for changing (I. C. Roberts), *357.
——Troubles, 1018.
——Wiring for, control (Alexander, W. H. Lee), *816, *1162.
Cleveland. (See Ohio):
Clock, electric church (K. Leopoldsberger) D, 262.
Coal. (See also Mines):
——Bituminous-, surplus, 1027.
——Public utilities must view, situation calmly (editorial comment), 489.
——Strike begins, 719, 825.
Codes. (See also Manufacturing and Markets and Standards):
——National Electrical:
Growth and its relation to industry trends (editorial comment), 591.
1927, no, 481.
——Problems of codification and standardization (Irvin W. Day), 147.
Coffin Award for 1927 to Boston Edison, *1247, editorial comment, 1234.
Colorado:
——Denver franchise, 316, 365, 418, editorial comment, 388.
——Moffatt tunnel, electricity in the construction of the, *188.
——Public Service Association committee meeting, 773.
——Public Service Company:
Denver franchise, 316, 365, 418, editorial comment, 388.
Mountain lion electrocuted on high-tension line, *474.
——River (see under Hydro-electric developments).
Commercial activities and practices:
——Achievement, impatient for commercial, *1261.
——Advances, time to consolidate (editorial comment), 85.
——A message from sales managers (Earl E. Whitehorne), *1281.
——Appliances:
Load, survey shows value of (Lewis A. Lewis), *653.
Manufacturers, a challenge to household (editorial comment), 746.
Revenue per $1,000 gross sales of, 765.
Commercial activities and practices, Appliances (Continued):
Sales, post cards aid special, *614.
Trunk for servicing and merchandising, *971.
——Blast the commercial levees (editorial comment), 1181.
——Competitive market for domestic electric service, the (Col. C. F. Lacombe), *1139.
——Conquest of the home, the (editorial comment), 3.
——Cooking:
Schools, neighborhood, 462.
——Cost of year's electric service in well-equipped residence, 666.
——Courage, where is our? (editorial comment), 1050.
——Customer-credit indicator, Western utilities, *310.
——Customer, what is a? (editorial comment), 339.
——Dealers in displaying merchandise, utility aids (J. J. Caddigan), *665.
——Dollar will buy electrically, showing customers what a, *871.
——Doorbell ringing not good merchandising in cities (A. C. McMicken), 462.
——Expansion, what price? (editorial comment), 797.
——Field for electricity opens as labor and power costs separate, *1113.
——Figs cooked electrically solve problem, *1023.
——Hartford (Conn.) two-part rate, residential usage gains under, *969.
——Heater and fan mounted on electric range, combination, *463.
——Heating, electric:
Industrial, sales organization (Odin Wilhelmy), *293.
Industrial, why not sell it to actual users?
Water, 32 companies experiences in load-building with, *1368, editorial comment, 1365.
——Holding company commercial department, benefit, *1205.
——Home, a modernized electrical (editorial comment), 1314.
——Ice and refrigeration business in Chicago, *872.
——Irons:
Georgia sells 5,679 in ten days, 563.
Georgia sells 5,679 in ten days, 563.
——Joint industry sales conference, speed the recommended (editorial comment), 1366.
——Lamp display, novel arrangements for floor (C. E. Michel), *767.
——Lamps, incandescent:
El Paso sales average $1.65 per customer, *360.
"Mill a watt" stimulated sales, 919.
Pacific Power & Light Company campaign, 310.
Portland (Ore.) campaign, 210.
——Lighting:
"Ads" yield returns, 156.
Commercial, opportunities for installing equipment for (editorial comment), 1183.
Fixture selling, combining utilitarian and artistic appeal in (editorial comment), 694.
Fixtures, an opportunity to double business in residence (editorial comment), 186.
Floodlighting, object lessons in, *667.
Freight yards floodlighted, *1021.
Outdoor, promoted during holidays (W. E. Holland), *411.
Profits in shaded and diffused (editorial comment), 948.
Refixturing campaign, Ohio Public Service Company's (C. L. Dunn), *551, editorial comment, 543.
Refixturing leadership now up to the power companies (editorial comment), 491.
——Load-building operations, analysis of results of, *87, editorial comment, 85.
——Load-factor:
Improvement suggestions, 308.
——Man power, sales and (editorial comment), 285.
——Market survey should precede merchandising campaigns, 464.
——Measuring, proficiency, *87, (editorial comment), 85.
——Merchandising:
Leadership (George A. Hughes), *1176.
Losses to operation, charging (editorial comment), 1051.
——Power sales:
Dairy pasteurizes milk with electricity, Pittsburgh (L. H. Lingeman), *919.
Department, functioning of a (R. A. Graves), 703.
Drive compared with older methods, electric, 1388.
Engineers challenge salesmen (editorial comment), 847.
Furniture factory, purchased power in a (W. H. Snyder), 106.
Ice cream plant, purchased power displaces oil engine in, *305, comments (Edgar J. Kates), 660, (P. R. Larimer), 660, (utility power engineer), 710.
Melting, 40 cents per ton for electric (B. K. Howard), *765.
Power factor, mechanical device aids in explaining, *1074.
Public Service Company of Northern Illinois' booklet on industrial promotion, *615.

*Indicates illustrated articles

Commercial activities and practices (Continued):
——Radio:
Socket-power devices yield high revenue, 614.
——Ranges:
After it is sold (Mildred O. Terman), *1336.
Combination heater and fan mounted on, *463.
Load builder, favored as a, 410.
Revenue averages $4.29 monthly, Wisconsin, 512.
Load building with, 32 companies' experiences in, *1368, editorial comment, 1365.
Transformer diversity of (Stanley Taber), 870.
Users' experience as a sales help (Stanley Taber), *969.
——Rates:
Compound, stimulate residential use, 412.
Hartford two-part, residential usage gains under, *969.
Inducement, for residence service, 645, comment (C. F. Lacombe), 761.
Simple inducement, are essential to large service usage (E. A. Graham), 757.
Step, advertising, *1075.
Top, for residence business, down with the (editorial comment), 541, comment (C. F. Lacombe), 761.
——Refrigerators:
Advertising the service value of, *716.
Commercial department, New Orleans utility's, 870.
Ice business increased by, *666.
Kansas City holds show (B. J. George), *819.
Records and service data, *107.
St. Louis, selling in (C. E. Michel), 921.
Sales quotas and man-power, *605.
Winter campaign (H. C. Porter), 360.
——Representatives, duties of commercial, 565.
——Sales expansion, the duty of (editorial comment), 389.
——Sales managers' responsibility (R. W. Turnbull), 208.
——Salesmen's records, keeping individual, 309.
——School holds electrical short course, home economics, *921.
——Service agreements by streets, solicit, *411.
——Servicing appliances at the customer's door, *970.

——Northwest Association, Convention, 214.
——Unity among the, responsibility for national (editorial comment), 947.
——Western Section of International Association meets, 316.
Instruments (see Measurements and Meters):
Insulation (see also Insulators):
——Bakelized paper, dielectric strength of (F. Grünewald) D, 820.
——Dielectrics:
A.I.E.E. papers on, 393.
——Solid, novel testing method for (Ed. Renz) D, 1391.
——Measurements, need of accuracy in (C. C. Kasson), 1331.
——Electrode effects in the measurement of power factor and dielectric constant of sheet (E. T. Hoch) D, 159.
——Glasses, power losses in commercial (William C. Decker), *601.
——Heat transfer through, in the moderate and high temperature fields (L. B. McMillan) D, 414.
——Meter, breakdown test (C. J. Fuhrmann), *562.
——Submarine, with special reference to the use of rubber (R. R. Williams and A. R. Kemp) D, 668.
——Testing of, impact (W. W. Werring) D, *1206.
——Waxes, resins and bitumens, effect of moisture on electrical properties of insulating (J. A. Lee and H. H. Lowry) D, 972.
Insulation (Continued):
Insulators (see also Insulation):
——"Cementless" slotted (M. Bucov) D, 1076.
——Chain:
Flashover tests on (W. Stoermer) D, 923.
——Changing, on a hot line, *460.
——Flashover, effects of line construction on, *1020.
——Stoneware, use of (F. Singer) D, 717.
——Washing dirty, 155.
Insull, Samuel (see Insull interests, Commonwealth Edison Co., Financial and Illinois):
Insull interests:
——Samuel Insull:
Political contributions scrutinized, 471.
Reed committee asks citation of, for contempt, 516.
——Medal to Kansas man, *1167.
Interchange of energy (see Interconnection under Transmission):
Interconnection (see under Transmission):
International Electrotechnical Commission:
——Meeting in Italy, 515.
——Rivers, rating of, 572.
International Economic Conference 774 (E. J. Mehren), 1042, 1061, *1225, 1355, editorial comment, 1102.
International High-Tension Transmission Congress, 776, 875.
Interruption reports, *1071.
Iowa:
——Power Conference, 775.
Iron (see also Furnaces and Steel):
——Association of, and Steel Electrical Engineers (see under A):
——Electrolytic, some properties of (G. P. Fuller) D, 160.
——Gray-, plants, alloying units for (H. P. Parrock) D, 363.
——Wires, hardening of (H. Altpeter) D, 363.
Italy:
——Hydro-electricity in Northern, 960.
——Hydro stations on the River Lys (J. Pausert) D, 513.
——Power development, forges ahead (C. E. Grunsky), 1175.
——Volta centenary exposition at Como, 1397.

J

Jobbers (see also Electrical Supply Jobbers' Asso. and also Manufacturing and Markets):
——Elect a leader and gird their loins (editorial comment), 1001.
——Opportunity before the (editorial comment), 797.
——Six things to be done in the supply field (editorial comment), 286.
Joint Committee of National Public Utility Associations:
——Cortelyou leads, 1212.
——Washington office, no, 1345.

K

Kansas:
——Commission's chairman attacked, 1167.
——Man receives Insull medal, *1167.
——Rate case before commission, 620.
——United Power & Light Corporation's Salina building, *564.
Kansas City, Missouri. (See Missouri):
Kentucky:
——Association of Public Utilities Convention, 367, 472.
——Louisville Gas & Electric Co.
Appliances, revenue per $1,000 gross sales of, 765.
Floodlighting, object lessons in, *667.
Models show investors where the money goes, *666.
——Louisville Hydro-Electric Company's Ohio River project, *646.
——Utilities Company's progress, 473.

L

Labor (see also Employee relations):
Lamps, Arc:
——Maintenance at Worcester, *497.
——Modern (G. Laue) D, 413.
——Tungsten (H. Pecheux) D, 159.
Lamps, incandescent:
——Dual-purpose light, a (Hughes, Titus, Payne and Klein) D, 923.
——Manufacture of, (C. C. Paterson) D, 874.
——N.E.L.A., committee makes recommendations, 714.
——Sales in 1926, p. 78.
——Tripp wants a more economical, 268.
League of Nations forms electrical committee, 146.
Leagues electrical:
—— Camp Co-operation VII, 1294.
——Status in the industry, their (editorial comment), 440.
Legal decisions (see Court decisions and Rates):
Legislative Mill, in the, 113, 162, 213, 214, 267, 315, 367, 418, 470, 515, 516, 518, 568, 569, 622, 671, 722, 824, 877, 927, 976, 1030.
Lighting (see also Lamps, Lighting, industrial, etc.):
——"Ads" yield returns, 156.
——Canal navigation, to guide, *598.
——Christmas:
Lights spread cheer, electric, *259.
Trees attract trade, illuminated, *361.
Lighting (Continued):
——Church, art and utility in (J. L. Stair) D, 1391.
——Church, principles of (Edward Rambusch) D, 1340.
——Color, introduction to (R. Gillespie Williams) D, 159.
——Commercial, opportunities for installing equipment for (editorial comment), 1183.
——Contrasts and (P. W. Cobb and Frank K. Moss) D, 616.
——Control of illumination from windows (H. H. Higbie) D, 768.
——Cure in Berlin requires 10,000 kw., *766.
——Daylight:
Artificial, increase in use of (editorial comment), 85.
Interiors, factors affecting daylighting of (A. F. Beal) D, *874.
——Direct and indirect illumination, designing (C. Otto von Dannenberg), 253.
——Equipment men meet, 316.
——Fixtures:
Refixturing Campaign, Ohio Public Service Company's (C. L. Dunn), *551, editorial comment, 543.
Refixturing leadership now up to the power companies (editorial comment), 491.
Residence, an opportunity to double business in (editorial comment), 186.
Selling, combining utilitarian and artistic appeal in (editorial comment), 694.
——Fleet illuminates the shores of the Hudson, *1031.
——Floodlighting:
(Jones, Lingard and Catten) D, 311.
Denver monument, *521.
Freight yards, *1021.
Kansas City world war memorial, *115.
Natural Bridge, Virginia, 1296.
Object lessons in, *667.
Railroad yards and factory grounds, for, *918.
Substation, of outdoor, *867.
——Lecture course, Pittsburgh, *1072.
——Library, the Engineering Societies (M. M. Samuels and James T. Holmes), *191.
——Louisville University's Class on, *1204.
——Medicine and surgery, light in (Herman Goodman) D, *923.
——More life, less cost (D. T. Bolton) D, 769.
——Night, in construction work at Conowingo, *1385.
——Outdoor:
Holidays, promoted during (W. E. Holland), *411.
——Public, by electricity, problems of (Hayden T. Harrison) D, 923.
——Radio metric measurements on the carbon arc and other light sources used in phototheraphy (Coblentz, Dorcas and Hughes) D, 466.
——Residence, specifications for, 349.
——Saturation and (editorial comment), 135.
——Schools, the increase of (editorial comment), 337.
——Searchlight gun paints electric pictures on clouds, *776.
——Shade makers should provide attachments, contends that (Charles L. Benjamin), 1067.
——Shaded and controlled, at the exhibition of equipment (editorial comment), 593.
——Shaded and diffused, profits in (editorial comment), 948.
——Shaded light—a satisfaction to customer as well as utility (Ward Harrison), *914.
——Shaded light should be emphasized, value of (G. W. Weston), 354.
——Speed of vision, a limit to the (editorial comment), 1000.
——Theatre:
Emergency (James M. Evans and James McConahey), *595.
London (D), 874.
Roxy's new, *297, *721.
——Transmission of, through window glass (E. H. Hobbie and W. F. Little) D, 820.
——Under-water (S. G. Hibben and W. A. McKay), D, *973.
——Windows deliver daylight, making (W. C. Randall and A. J. Martin) D, 821.
Lighting fixtures (see under Lighting):
Lighting, industrial:
——Activity is timely (editorial comment), 542.
——Artificial, fifty years have reversed the economics of (editorial comment), 1050.
——Good, again found to increase production (editorial comment), 747.
——Intensity of light and speed of vision with special reference to industrial situation (C. E. Ferree and G. Rand) D, 362.
——Railroad-station, better (editorial comment) 286.
——Railway classification yards (George T. Johnson) D, 262.
Lighting, store and window:
——Good, economic value of (A. S. Turner, Jr.) D, 567.
——Value of (A. A. Brainerd and F. C. Winters), *668.
Lighting, street and highway:
——Clock controls St. Louis, automatically, *609.
——Columbus, Ohio, chooses plan, 217.
——Contracts be made profitable, why should not new (editorial comment), 695.
——Cost of a, extension, 154.

Lighting, street and railway (Continued):
——High-voltage (A. Torquet) D, 1340.
——Highway:
Demonstration of (Frank C. Taylor), *549.
——St. Louis, automatic substations control (E. Vernon Ellett), *1053.
——Seattle, new (C. Maynard Ross), *443, comment (Henry A. Campbell), 813, comment (J. D. Ross), 813, answer by author, 865.
——Tendencies, modern (D), 212.
——Tower wagon, Lynn utility adopts electric (J. A. Cook), *104.
——Visibility in (Preston S. Millar and S. Mc K. Kray), *760.

Lightning:
——Exposure hazards on intermediate voltage lines (editorial comment), 1001.
——Protection near (editorial comment), 287.
——Zigzag, really spiral, new camera shows, 368.

Load dispatching:
——Board at headquarters, automatic, 255.
——Budget-plan (P. B. Juhnke and L. N. Moore), *1317.
——Frequency errors read with ease, *965.

Load factor:
——Improvement suggestions, 308.
——"Plant factor" and (editorial comment), 999.

Locomotives (see Railways):
Los Angeles (see under California):

Louisiana:
——Flood (see under F).
——New Orleans Public Service:
Expansion in, 1297.

Lubrication (see also Oil):
——Signal warns of lubricating system failures, *762.

M

Machinery, electric. (See also Motors, Transformers, etc.):
——Air-gap magnetic field in non-salient pole (G. B. Hague) D, 362.
——Brushes to, application of carbon (P. D. Manbeck), *239.
——Cooling of, experiments on forced-air (D. H. Wills) D, 514.
——Excitation for stability, high-speed, *1061.
——Synchronous:
A. I. E. E. papers on, 395, 396.
Hunting of (R. Lochner) D, 212.
Impedance of a rotating, to a negative sequence voltage (C. F. Wagner and A. Dovjikov) D, 717.
Stability characteristics of (R. D. Evans and C. F. Wagner), *141.
——Vibration of frames of (J. P. Den Hartog) D, 1392.

Magnetic:
——Air-gap, field in non-salient pole machinery (G. B. Hague) D, 362.
——Fields, A. I. E. E. paper on, 396.
——Induction in sheet steel, determination of the (R. L. Samford and J. M. Barry) D, *1024.
——Testing (O), 362.
——Operation, linkage current diagram for representing (F. B. Silsbee and D. W. Randolph) D, 768.
Magnetostriction (L. W. McKeehan) D, 108.

Maine:
——At the crossroads (editorial comment), 185.
——Central, Power Company's Gulf Island plant financing, *1329.
——Cumberland County Power & Light Company develops hydro plant addition to conserve stream flow (George E. Haggas), *705.
——Fish River project, 875.
——Interconnection development in Central (George S. Williams), *755.
——Power exportation situation, 112, 368, 471, 489, 516, 772, 824, 875, editorial comments, 439, 745, 848.
——Water-power legislation, 824, 875, editorial comment, 848.
Maintenance. (See Inspection and maintenance):

Management:
——Building for system or for service (editorial comment), 237.
——Commendation moves mountains of indifference or opposition (editorial comment), 1051.
——Economies be concentrated, where shall? (editorial comment), 2.
——Forecasting utility growth (L. W. W. Morrow), *1185.
——Group utility, principles of (Halford Erickson), *1119.
——Guesswork out of business, take (editorial comment), 1102.
——Holding companies, executive readjustments in (editorial comment), 235.
——Interchange contracts often incompatible with economical operation (editorial comment), 83.
——Interconnections, but avoid contract limitations, plan (editorial comment), 339.
——Merchandising losses to operation, charging (editorial comment), 1051.
——Methods, money and (William McClellan), *1325, editorial comment, 1367.
——Opportunity to modernize and to organize, an (editorial comment), 83.
——Problems and responsibilities of electric utilities (H. T. Sands), *1115.
——Progressive policies, recommends continuance of (R. F. Pack), *1112.

Management (Continued):
——Refinancing effects rigid economies (H. M. Cameron), *1193.
——Small company's progress, graphic illustration of a, *1148.
——Street-lighting contract be made profitable, why should not new (editorial comment), 695.
Manhole for heavy service, *815.
Manufacturing and markets, domestic:
——Activities of the trade, 128, 178, 230, 280, 329, 383, 431, 484, 534, 586, 636, 689, 738, 790, 839, 892, 942, 993, 1045, 1094, 1179, 1227, 1309, 1359, 1411.
——Allis-Chalmers acquires Pittsburgh Transformer, 1092.
——Appliances:
Commercial aspects of, industry (George A. Hughes, E. G. Biechler, T. C. Russell, A. H. Goss), *1176.
Household, a challenge to manufacturers of household (editorial comment), 746.
——Brush simplification, committee on carbon-, 634.
——Building. (See Construction):
——Buying:
Hand-to-mouth, 787.
Industrial plant, 633.
Methods of large organizations, 277.
——Census of electrical manufactures, 1925, p. *939.
——Chamber of commerce meeting, 941, 1043.
——Code, No. 1927 National Electrical, 481.
——Construction:
Data applied to market development, *125.
1926, p. *227, 1927, p. *430, 634, *837, 1042, 1357.
——Contract distributors, building sales through, 736.
——Credit and collections, 126, 634, 890, 1307.
——Delinquent electrical accounts. (See Credit and collections):
——Fan sales and weather forecasts, 533.
——Federal Trade Commission report, 469.
——Flashlight cases, simplification conference on, 991.
——Insurance available, current interruption, 584.
——International Chamber of Commerce, economic conference, 1357.
——International Economic Conference. (See under I):
——Jobbers inaugurate course for salesmen, 991.
——Lamp sales, incandescent, 78.
——Lincoln arc welding award, 228.
——Literature, new trade. (See under Trade literature):
——Load factor, increasing manufacturers: *531, editorial comment, 491.
——Manufactures, 1925 census of electrical, *939.
——Manufacturers predict prosperity, 75.
——Manufacturing:
Activity, 838.
Facilities, means of improving, 787.
Plants, barometer of production in electrical. (See under Statistics):
——Market analysis is stabilizing industry (Hon. J. H. Trumbull), *1113.
——Metal market prices, 127, 177, 229, 279, 328, 382, 430, 483, 533, 585, 635, 688, 737, 788, 838, 891, 941, 991, 1044, 1092, 1178, 1226, 1308, 1357, 1410.
——Motors:
Direct-current, sales statistics, 126, 429, 584, 788.
Fractional-horsepower, meeting on, 583, editorial comment, 542.
Fractional-horsepower, use of, 327.
Induction, standards, 686.
Industry, what's wrong with the?, *379, comment (Edward Bretch), 812.
Manufacturer interested in control, is the? (editorial comment), 899.
——N.E.M.A., its place in the industry (Clarence L. Collens), *685.
——Orders for electrical goods, 1356.
——Poles purchased in 1925, 1307.
——Power switching equipment sales, 686.
——Price competition, one form of (editorial comment), 440, comment (J. F. Lincoln), 865.
——Pumps and water systems, sales of domestic, 890.
——Purchasing information, use of (Edward T. Gushée), 1407.
——Quality, incentives to insure (editorial comment), 592.
——Ready to go (editorial comment), 1366.
——Refrigerators:
Field growing (A. H. Goss), *1177.
——Sales, trend of electrical, *1177.
——Salesmanship, strengthening engineering, *735.
——Salesmen, buyers prefer amusing (J. F. Lincoln), 865, comment (Weller H. Colburn), 1199.
——Shipping, preparation of electrical equipment for (R. H. Ewry), *762.
——Sign business, development of, 989.
——Simplification
Brush committee, carbon-, 634.
Flashlight cases, conference on, 991.
——Specialty manufacturers, business prospects for (H. W. Young), 78.
——Speeds of machinery, standard, 787.
——Standardization, industrial, 228.
——Switching equipment manufacturer, load factor of, *989.

Manufacturers and Markets domestic (Continued):
——Trade association activity (D. Hayes Murphy), *429.
——Trade literature. (See under Trade literature):
——Transformers, manufacture of distribution (W. A. Sumner) D, 873.
——Trucks and tractors, sales of electric industrial, 177, 429, 890, 1356.
——Union label on electrical products, 889, editorial comment, 899.
——Vacuum cleaner sales, 736.
——Washing machines, *584, 1043.
——Welding prizes, Lincoln arc-, 533.
——Wiring, Industry Conference on, 1223, editorial comment, 1183.

Manufacturing and markets, foreign:
——Australia, 1356.
——Export markets, knowledge of merchandising methods develops (editorial comment), 134.
——Exports, electrical, *175, 278, 633, 735, 1043, 1306.
